

# CW

## Why should you help birds all year round?

### Spring

Help birds to feed their young

### Summer

Dry ground makes it harder to find food

### Autumn

Birds are moulting and preparing their bodies for Winter

### Winter

Help birds to survive the harsh conditions

## Birds love fruit...

...like apples, pears and soft fruits

## You can also feed them table scraps...

...like cooked pasta and rice, boiled potatoes, cheese and uncooked, unsalted bacon rind

## Fat and suet balls...

...but make sure they're net free!

## Seeds and grains...

...can include sunflower, nyjer, millet and oats...

## Peanuts...

...must be unsalted, fresh and in good condition to make sure they don't contain aflatoxin

## Mealworms

Go and buy some Bird love them

## Be careful!...

...grapes, sultanas, raisins and some artificial sweeteners are toxic to dogs

## Keep it clean!
